MUBARAK ALI S

Web Developer — React.js & JavaScript

mubarak23523@gmail.com | +91 7708719264 / 7708262868 | linkedin.com/in/mubarak5 | github.com/MubarakAli05

PROFESSIONAL SUMMARY

Web developer pursuing a B.Tech in Artificial Intelligence and Data Science, with hands-on experience in React.js, Node.js, and MongoDB gained through a client website project, a training project, and a front-end development internship. Looking for an entry-level developer role on a collaborative team where I can keep learning and contribute from day one.

TECHNICAL SKILLS

Languages: JavaScript, Python, SQL, HTML, CSS

Frameworks & Libraries: React.js, Node.js, Express.js, Bootstrap

Tools & Platforms: Git, GitHub, MongoDB, VS Code, Vercel, Render, Power BI, MS Word, MS Excel, Blender

Core Strengths: Creativity, Problem-Solving, Critical Thinking, Adaptability, Communication

EXPERIENCE

Front-End Developer Intern — JClick Solutions, Nagercoil Jul 2025 – Aug 2025

- Learned the basics of front-end web development, including building and structuring simple web pages using HTML, CSS, and JavaScript.
- Gained hands-on exposure to version control using Git and GitHub.

PROJECTS

Digital Flex Printing Company Website — Client Project Dec 2024

chennaidigital.netlify.app

- Built and delivered a responsive company website for a real client, using HTML, CSS, JavaScript, and Bootstrap to showcase their printing and branding services.
- Designed a user-friendly interface with interactive UI components, improving accessibility and overall user experience.

Increnity — Training Project May 2026

github.com/MubarakAli05/increnity

- Trained on smoother dashboard handling by building a full-stack platform with React.js, Node.js, Express.js, MongoDB, and JWT authentication.
- Implemented protected routes, project management, image uploads, and an admin approval workflow.
- Deployed via Vercel, Render, and MongoDB Atlas to learn scalable cloud hosting.

NEXUS — Personal AI Assistant — Learning Project

github.com/MubarakAli05/NEXUS In Progress

- Building a unified AI assistant for Windows to learn how AI chat, voice interaction, computer vision, automation, and system control can work together in one interface.
- Exploring Python, PySide6, AI/LLM APIs, Whisper-based speech recognition, text-to-speech, and Windows system automation.
- Learning to package a Python-based system into a proper Windows desktop application with its own installer.

EDUCATION

B.Tech, Artificial Intelligence and Data Science - Stella Mary's College of Engineering, Kanyakumari | 2023 – 2027 | CGPA: 7.5

HSC - Belfield Matric Higher Secondary School, Asaripallam | 2023 | 74%

SSLC - Belfield Matric Higher Secondary School, Asaripallam | 2021 | Pass

CERTIFICATIONS

- Media Monitoring and Data Visualization — Oliver G Foundation & CapeStart (Oct 2025)
- Certificate of Internship in Web Development — JClick Solutions
- Inbox Tech Carnival — Web Designing, Inbox Info Solutions Corp

ADDITIONAL INFORMATION

Interests: Creative Design, Designing and Rendering, Reading, and Travelling.
